

"By using fallacies, we can better explain and defend evolution. When you don't have facts, you have to use fallacies."

"Tell them what they can teach; tell them what they should not teach; fire them if they don't! Get the teachers and we've got the students!"

"We must control the minds of the next generation before they mature. They do not need to think, but they do need to accept what we tell them."

"If we can just win over the grade school teachers and high school teachers to our side, we'll soon control the minds of the nation!"
