

OH! OH! I'm Doomed!
MUD, JUST MUD! I've
GOT IT! THERE IS A
WAY OF ESCAPE!

FISH FACTS

I'M HUNGRY!

Mc
Dennys

DAD!
LET ME IN!

The TILAPIA FISH USES
HIS MOUTH AS A HATCHERY
FOR ABOUT FIVE DAYS. ONCE THE
LITTLE FISH LEAVE, THE ADULT RESUMES
EATING ~

The LUNG FISH LIVE IN STAGNANT
WATER WHICH DRIES TO MUD IN
THE DRY SEASON. IT SURVIVES
BY BURROWING INTO THE MUD
WHICH DRIES TO A HARD CLAY.
IT IS RELEASED WHEN THE
RAIN COMMENCES ~

Quick!
He's red.
There's
a TASTY
MORSEL
FOR US!

HELP!

The MEDITERRANEAN GOAT FISH
TURNS RED AS A SIGNAL TO
ANGEL FISH THAT IT
NEEDS RESCUING
FROM A WORM ~

The BEAUTIFUL CLOWN FISH SEEKS
REFUGE WITH THE ANEMONE WHOSE
TENTACLES PARALYZE OTHER
PURSUING FISH ~

BUR-R-
ONE
QUART
PLEASE!

ANTIFREEZE
FOR SALE

TEMPERATURE
TODAY: 1
2°C

The TRIGGER FISH
HAS A LONG, SHARP
SPIKE ON ITS DORSAL
FIN - WHICH SOON
DISCOURAGES
ITS ENEMIES -

The ICE FISH'S BLOOD
IS COMPOSED OF A CHEMICAL
COMPOUND WHICH ACTS AS
ANTIFREEZE -
