

# ANIMAL MIRACLES

Porpoises use highly efficient radar systems which enable them to detect and locate enemies ~

The elephant's ears are giant cooling systems ~

The river otter's whiskers are highly sensitive to faint shock waves and electrical currents from fish ~ even if unseen ~

The koala eats nothing except eucalyptus leaves which are poisonous to other animals.

The arctic hare doubles back on its tracks by as much as a quarter of a mile - then jumps clear ~ leaving its pursuer in a quandary ~
